

# Why should Life Science Industry participate in Horizon 2020

The aim of the workshop is to present the different opportunities that the Horizon 2020 EU funding program offer to companies active in the Life Science sector. The benefits that the Horizon 2020 programme offers include financial support, collaboration with European Academia and Universities and communicate research to many different organizations and target groups. Speakers:

Anders Blanck, CEO for LIF Pharmaceutical Research Companies in Sweden will provide the view of the Pharma Industry about Horizon 2020 and introduce and discuss the future needs within the Pharmaceutical sector in areas such as funding, collaboration and networking.

Dr Alexander Natz will present the European Pharmaceutical Network EUCOPE and discuss the possibilities that the Horizon 2020 represents for EUCOPE and IML

---
